From the unaccompanied underage children that reach our shores, to the children of our families forced to emigrate to achieve a recognition elsewhere – Giovanna Taviani, director of the Festival, explains – Together to reflect, through cinema, on the generational bond between fathers and sons, which has been broken more than ever before, and on the young people’s search for fertile lands, who don’t want to give up their hopes.” Capofaro is the opportunity to discover the Aeolian islands, from snorkeling, relaxing by the pool and nature walks exploring Didyme, the twin mountains. The boat tour for a swim in front of Pollara beach, one of Sicily’s most beautiful beaches, is a must.
